SUMMARY

Web developer who builds websites and web apps for individuals, shops and businesses: online stores, portfolios, business sites, course platforms and custom apps. Designed, built and launched Uniqou, a student collaboration platform, as a solo founder. Keeps learning new AI tools and skills as they emerge to deliver faster, better work. Also runs an art account on Instagram with 8,000+ followers and handles social media marketing for Uniqou.

EXPERIENCE

Founder & Developer, Uniqou | 2026 – Present

uniqou.in

- Built and launched a platform that helps students find project teammates, co-founders and hackathon partners.
- Built with React and Supabase.
- Features: mutual connections, real-time messaging, discovery feed, profile builder, photo posts, Google sign-in and dark mode.
- Runs product marketing: short-form video, graphic posts and Instagram growth for @uniqouapp.

Freelance Web Developer | 2026 – Present

- Building websites and web apps for clients: online stores, business and shop websites, portfolios, course-selling sites and custom apps.

Partner, AI Film Agency | Recent

- Co-run an agency that produces AI-generated film and video work for clients.

Artist | Ongoing

- Sketch and anime artist on Instagram with 8,000+ followers, working as the sole creator.

Reseller | Earlier

- Bought and resold tech products such as phones and laptops online.
